February 2025 Program Summary and Upcoming Events:

- This February, EE Staff opened our maple sugar shack at the Meesing Nature Center site. We began the process of tapping 200 maple trees and started our Maple Sugaring field trips mid-February ahead of our public days March 1 and March 8. Maple Sugaring field trips and public days explore the history and science of syrup making as participants cycle through programmatic stations and learn about our process.
- EE Staff hosted 5 public programs in February, including a very popular owl pellet dissection. We plan to offer this program again in the future.
- This March, our staff is finishing up maple sugar field trips and public days and looking ahead to a run of in-classroom programs and onsite field trips for elementary students in the county districts. These yearly field trips offer some in classroom instruction and then take Kindergarten students on a bug walk at KCEEC, 2nd and 3rd grade students on a pond exploration at Meesing Nature Center, and 4th grade students on a trip to the Tannersville Bog.
